

Student Information

Name : Riddhi Acharya

Grade level : 11 (Junior)

Current math course : AP Calculus AB

Period : from 8:50 am - 9:40 am every Tuesday, Thursday, and Friday

Math teacher last year : Karen Meyer

Math course last year : Algebra 2 Honors

Math grades last 3 trimesters : A- , A-, A

Goals / reasons for taking this course : I want to study engineering in future, and I have heard that Calculus is one of the fundamental requirements in most of the engineering fields. That's why, I would like to have a solid grasp of the concepts, principles, and procedures of Calculus. Along with Algebra 2, I have self-studied Pre-Calculus and this year in addition to AP Calculus AB, I am also taking Pre-Calculus online class.

Obstacles / challenges to achieving your goals : I understand that the concepts of Calculus are more difficult and more abstract than those of Algebra 2 and Pre-Calculus. But since I understood the concepts of Algebra 2 and Pre-Calculus really well, I am quite confident that I would not have any difficulty in understanding and solving the problems of Calculus.

Share about yourself : I am hard-working, fun-loving, and passionate with a high degree of emotional intelligence. I love to read books and play video games in my leisure time.
